La Morra, 13<sup>th</sup> March 2007

Messrs,

Shurflo Pump Company, LLC  
5900 Katella Avenue  
Cypress, CA 90630

For the kind attention of Mrs Melanie Sprague

**Subject: : Reduction of Hazardous Substances (RoHS) Compliance  
EU Directive 200/95/EC**

Dear Melanie

Thank you for your enquiry relating to our solenoid pumps compliance to the subject directive.

As you are aware, the European Directive 2002/95/EC on the Restriction of the use of certain Hazardous Substances in electrical and electronic equipment (the RoHS Directive) requires that Member States shall ensure that, from 1 July 2006, new electrical and electronic equipment put onto the market, does not contain amounts of certain substances in excess of those detailed in the Annex to the Directive including amendments.

Invensys Controls has completed the review of the materials and processes used in the above noted product. Invensys Controls can certify that, so far as we are aware having taken reasonable steps to verify, all of the above noted products are RoHS compliant as manufactured as of January 1<sup>st</sup> 2006.

I trust, the above could be acceptable to you and remain at your disposal for any further information you may need. Best regards.

Yours Sincerely
